Trade Show Displays

Whether you need a 2 story custom display, or a basic TableTop exhibit -Designs on Display will supply the right product for your needs. We have helped companies maximize their trade show and exhibiting programs for over a decade and our experience will help save you money, valuable time, and will help to increase your sales. We are the home of the World's Fastest Trade Show display system and many of our lightweight products can be set up in minutes, not hours. Ask us to team up with you for your next exhibit and see the difference!

- Custom Trade Show Exhibits
- Portable Modular Display Systems
- Discount Exhibit Systems
- Rentals
- Show Management Support
- Showroom Design

Large Format Graphics

We produce graphics which are over 10'-0" wide and 150'-0" long in a single run! We also produce images which are full color when viewed from one direction, and completely clear when viewed from behind! We print on plastic, fabric, metal, porcelain... anything! We can put up to 10 images in a single poster and each one can be seen when viewed from a slightly different angle. At Designs on Display our real specialty is in keeping up with technologies, access to wholesale pricing, and in-house design creativity to help you get the attention you deserve!

- Vehicle Graphics
- Banner Stands / Table Drapes
- Posters (Standard, Backlit, or 3D)
- Outdoor Signs
- Traditional Vinyl
- Point of Purchase Displays

Video Production

Video production is a key element in modern visual communications. We have the ability to create stunning, attention getting messages which will captivate and educate your customers without the high priced overhead of most video production studios. Our capabilities, our creativity and our expertise gives you access to the finest in special effects, computer modeling, royalty free soundtracks, and professional editing without blowing your budget. Come as us how to maximize your investment, and start getting the attention you deserve!

- Story Board / Writing
- Green Screen Technology
- Computer Animations / 3D Modeling
- CD-Rom / DVD duplication
- Interactive Multi-media
- Live Actors / Customer Testimonial Videos

Website Design

The world of online marketing is constantly evolving, but when you boil it down -its not that complex. By adding interactivity to your online messages you can collect as much information about your potential customers as you can deliver to them -and Designs on Display can help you take advantage of everything the web has to offer. From designing and hosting websites, to e-commerce packages and Search Engine Optimization -we can help give you the instant global presence you are looking for.

- Social Networking

Logos / Brochures / Business Cards

Need everything from a logo on up? Designs on Display will create the image you want and a logo you'll love -and then we can help you take it to your letterhead, business cards, trifold presentations, invoice paperwork, envelopes, -anything that is printed by a traditional printer! We can use digital runs to save money; or take advantage of print options such as: profile cuts, variable data printing, 8 color processes and more! We will also help you with digital versions for use in programs like Word, PowerPoint, or for just adding to the signature of all your e-mails.

- Complete Logo Design
- Folder Presentations
- Magazines / Bound Presentations
- TriFolds / Postcards
- Business Cards
- Direct Mail

Full Graphic Design

The artists at Designs on Display will create anything from hand drawn illustrations, to full scale computer models which render just like real life. We try to make the design process for you the best part of it all! We will sit with you to discuss your needs, present concept options, work with you on creating a final design, -and produce the high resolution final artwork. We also feel a design belongs to you once you commission it. We will never pull licensing rights and you will be able to use your new illustrations for as long as you want.

- Hand Drawn Illustrations
- Computer Modeling / Rendering
- Graphics formatted for use anywhere
- Optimized Graphics for Video / Web
- PowerPoint Design
- Art Created for Advertising
